

## **Transform Your Practice with Confidence**

*The Complete Guide to Adult ADHD Evaluation for Licensed Psychologists*

**Joseph E Schumacher, PhD, Clinical Psychologist**

This step-by-step manual is designed for licensed clinical psychologists ready to expand their services and deliver high-quality, evidence-based adult ADHD evaluations. Whether you're just getting started or want to enhance your practice, this guide equips you with everything you need to begin accepting referrals immediately.

Inside, you'll find:

- A comprehensive, structured diagnostic protocol
- Editable clinical forms and checklists
- Psychometric interpretation tools
- Report-writing templates
- A 30-day onboarding plan to get started fast
- Access to the live 3-hour Zoom training may be found on the website

Created by a clinical psychologist who has conducted hundreds of adult ADHD evaluations, this manual reflects years of real-world application and refinement. It is a trusted resource for professionals seeking clarity, efficiency, and clinical excellence in ADHD diagnosis.

Please note: Access to continuing education courses and elected articles referenced in the training are available in the digital manual only. The CNS Vital Signs neurocognitive assessment and Barkley Adult ADHD Rating Scales must be purchased separately by the clinician.

This manual is licensed to the purchaser only. It may be printed or copied for the purchaser's personal use, but may not be shared, distributed, or copied for use by any individual or organization that has not purchased the manual directly from Parkway Behavioral, LLC.
